Robito Oliva RO-001

Robitoliva is a small appliance created to crush or crack olives, its easy handling will allow you to create different finishes.

With Robitoliva we can work with different sizes of olives, this allows us to prepare our recipes and use this machine with different varieties and ripeness of the fruit.

Thanks to its simplicity in assembly and its small size, we can use Robitoliva in any space or place.

General characteristics

- Speed, efficiency and simplicity.
- Start up at the push of a button.
- Allows quick and safe cleaning using warm water and a cloth. Support safe for the dishwasher.
- Three different positions for the size of the olive. Without support, with 1 support or with 2 supports.
- It is made up of three pieces that are easily assembled.
- The motor box has two small openings that are easily integrated with the screws in the mechanism housing (included in the packaging).
- Cover with two positions; one to slitting and another to smash the fruit.
- Includes two supports for the different sizes.
