## Domestic

### Robito Vaina RV-001

Robito Vaina is a small appliance that allows you to shelling any type of fruit or vegetable that has a pod quickly and easily.

The speed and efficiency of its peeling allows a large quantity of food to be processed, facilitating the freezing and storage processes for future consumption.

Thanks to the Robito Vaina you can peel any type of vegetable such as beans, soybeans and peas avoiding the dye on the hands that is usually caused by peeling.

### General characteristics

- Speed, efficiency and simplicity.
- Start up at the push of a button.
- Allows quick and safe cleaning using warm water and a cloth.
